

# Replacement Man

Dan Sartain

Well you didn't have to come  
If you want me here I is  
Well suck it up, you little girl  
'Cause its done for you and him  
And you didn't have to come  
If you want me here I is  
But when you hold me,  
All you want to talk about is him

And he said la la la la la  
Well he don't love you no more  
And when you kiss me,  
You just want to even up that score  
And he said la la la la la  
And you tell me how it hurts  
But I like when you come over  
So that only makes it worse  
Oh, now I'm the replacement man

But I like you hanging round  
And I wish when you come over  
You'd forget about that clown  
Now I'm the replacement man

Well I guess that it's my turn  
But your heart belongs to that little boy  
That ain't none of my concern  
Oh, now I'm the replacement man  
Oh, now I'm the replacement man

Well you didn't have to come  
If you want me here I is  
Well suck it up, you little girl  
'Cause you're acting like a kid  
And you didn't have to come  
If you want me here I is  
But when you hold me,  
All you want to talk about was him  
And you said la la la la la  
Well he don't love you no more  
And when you kiss me,  
You just want to even up that score  
And you said la la la la la  
And you tell me how it hurts  
But I like when you come over so that only makes it worse  
Oh, now I'm the replacement man

But I like you hanging round  
And I wish when you'd come over  
You'd forget about that clown  
Now I'm the replacement man  
Well I guess that it's my turn  
But you're heart belongs to that little boy  
That ain't none of my concern  
Oh, now I'm the replacement man  
Oh, now I'm the replacement man
