

# It Will Be Alright

Dan Seals

"I'm not in love with you," you said to me  
"You'll always be my friend  
But that's where the story ends"  
So I think that no one can love me  
I swear to keep to myself  
And never need anyone else

Oh, and now you wanna be loved by me again

I know love can come and go  
One day it's yes then one day no  
I know second chances don't fall from the sky  
I love you  
Stay with me tonight  
And it will be alright

Indecision sure can drive you wild  
My heart's starin' me in the face  
The pain can never be erased  
It scares me into runnin' like a child  
Oh, now I see your eyes  
And they say you have lied

Oh, and now I wanna be loved by you again

I know love can come and go  
One day it's yes then one day no  
I know second chances don't fall from the sky  
I love you  
Stay with me tonight  
Stay with me, and it will be alright

Stay with me tonight  
Stay with me, and it will be alright  
Oh do you want me  
(Let me know, yes or no)  
If you don't want me, then let me know

I know love can come and go  
One day it's yes then one day no  
I know second chances don't fall from the sky  
I love you  
Stay with me tonight  
Oh stay with me, and it will be alright  
(Let me know, yes or no)  
If you don't want my love, just tell me girl  
I know love can come and go  
One day it's yes then one day no  
I know second chances don't fall from the sky  
I love you  
Stay with me tonight  
Won't you stay with me, and it will be alright
