

Heaven + Back

Dan + Shay

It wasn't even half as far as I thought it'd be
It was barely out of town
Somewhere in between a creek and some evergreens
She was showing me around

I swore I saw a halo
Hanging over her head
I didn't know I needed saving
But that's just what she did

Last night, I went to heaven and back, and I stayed there for a
while
I danced with an angel till the stars went black, last night, I
went to heaven and back
She took my hand, and I saw the light, and I hope I'm going bac
k tonight
Hey!

There was something 'bout the way that she held me close
There was magic in her eyes
Watched her put a little gold on a gravel road
Turned the water into wine

Sunday morning's got nothing on her
You might not believe it, but I'm pretty sure

Last night, I went to heaven and back, and I stayed there for a
while
I danced with an angel till the stars went black, last night, I
went to heaven and back
She took my hand, and I saw the light, and I hope I'm going bac
k tonight
Hey!

I swore I saw a halo
Hanging over her head
I didn't know I needed saving
But that's just what she did

Last night, I went to heaven and back, and I stayed there for a
while
I danced with an angel till the stars went black, last night, I
went to heaven

Last night, I went to heaven and back, and I stayed there for a
while
I danced with an angel till the stars went black, last night, I
went to heaven and back

She took my hand, and I saw the light, and I hope I'm going back tonight
Hey!

It wasn't even half as far as I thought it'd be
It was barely out of town
