

Make or Break

Dan + Shay

Phones lighting up, grab my favourite shirt and my keys on the counter

'Cause you said you wanna dance

Halfway down the drive must of changed your mind

It ain't even been an hour, tell me you've got other plans

I wouldn't be surprised if later or tonight

You're calling, begging me to come over

'Cause baby, I'm caught up in the back and forth

I'm somewhere in the middle of you

And I don't know what I do it for

You love me, you hate me

You make me, you break me

Ooh, yeah

Ooh, when you do what you do, it's like you do it on purpose
Got me spinning in circles

First you say you're mad, then you take it back

Like you've forgotten all about it

I don't even understand

Why baby, I'm caught up in the back and forth

I'm somewhere in the middle of you

And I don't know what I do it for

You love me, you hate me

You make me, you break me

You love me, you hate me

You make me, you break me

Ooh, it's like you do it on purpose

And baby, I'm caught up in the back and forth

I'm somewhere in the middle of you

And I don't know what I do it for

You love me, you hate me

You make me, you break me

I'm somewhere in the middle of you

(Somewhere in the middle of you)

And I don't know what I do it for

You love me, you hate me

You make me, you break me

Ooh, you break me

You love me, you hate me

Oh, you break me
