

## Parson Brown

Dan + Shay

Darlin', hold it right there, you got some snow in your hair  
Like a shot from a holiday movie  
Your candy cane lips, I've been dyin' to kiss  
Sure are startin' to do somethin' to me

What you say we make your last name mine?  
Together, job done, I know just the guy  
He's five-foot-seven, wears a scarf and a hat  
And now I need to know where he's at

Has anybody seen Parson Brown?  
'Cause I been searchin' all over town  
Pretty soon, it'll be January, I wanna get married  
Tonight, tonight, tonight  
I wanna say, "I do"  
And when he asks you, baby, how 'bout you?  
We can dance in the slow while it's fallin', forever is callin'  
Tonight, tonight, tonight, tonight  
La-da-di-da-da

Heard it from a friend, he was hangin' on the east side  
But my cousin said he saw him sittin' beachside in Florida  
I don't think he knows what he's talkin' about

Now we're runnin' out of time and moonlight too  
Couldn't have got far when he ain't got shoes  
Probably sound crazy even askin' around  
Man, I really need him right now

Has anybody seen Parson Brown?  
'Cause I been searchin' all over town  
Pretty soon, it'll be January, I wanna get married  
Tonight, tonight, tonight  
I wanna say, "I do"  
And when he asks you, baby, how 'bout you?  
We can dance in the slow while it's fallin', forever is callin'  
Tonight, tonight, tonight, tonight

With him, walkin' in a winter wonderland  
Do I wanna put a diamond on your hand?  
To dreamin' of babies and dogs and a house  
But, man, I can't do it without

Parson Brown  
'Cause I been searchin' all over town  
Pretty soon, it'll be January, I wanna get married  
Tonight, tonight, tonight  
I wanna say, "I do"  
And when he asks you, baby, how 'bout you?  
We can dance in the slow while it's fallin', forever is callin'  
Tonight, tonight, tonight, tonight
