

Back To Me

Dan Talevski

Got my headlights on
Wanna put it in drive
I ain't turning back
If it takes all night
This could take all night

Baby, in my world
You're the morning sun
Can't eat don't sleep
Without your love
Cause I need your love

Oh, I can't
Do this anymore
And oh, can we find the way out?

Baby, come back to me your love
Baby, come back to me our love
Baby, come back to me your love
No, I can't take it
No, I can't take it
No, I can't take it your love
Baby, come back to me our love
Baby, come back to me your love
No, I can't take it
No, I can't take it
No, I can't take it

Wanna be with you
Wanna look in those eyes
Cause every single minute
I'm losing my mind
Yeah, I'm losing my mind

Baby, in my world
There's nobody like you
You took it away
I don't know what to do
I need you to come through

Oh, I can't
Do this anymore
And oh, can we find the way out

Baby, come back to me your love
Baby, come back to me our love
Baby, come back to me your love
No, I can't take it
No, I can't take it
No, I can't take it your love
Baby, come back to me our love
Baby, come back to me your love
No, I can't take it
No, I can't take it
No, I can't take it

Everyday and every night

Without you I just can't survive
I feel low even when I'm high
Everyday and every night
Without you I just can't survive
I feel low even when I'm high

Baby, come back to me your love
Baby, come back to me our love
Baby, come back to me your love
No, I can't take it
No, I can't take it
No, I can't take it your love
Baby, come back to me our love
Baby, come back to me your love
No, I can't take it
No, I can't take it
No, I can't take it

Everyday and every night
Without you I just can't survive
I feel low even when I'm high
No, I can't take it
No, I can't take it
Everyday and every night
Without you I just can't survive
I feel low even when I'm high
Baby, come back to me
