

Blackout

Dan Talevski

I wish
That we
Could build water slides from here to Mercury
'Cause this world
It keeps
Bringing me down 'til there's no dreamer left in me

Lately, people been calling me crazy
I'm sitting here, thinking like "maybe
Maybe they all been right"
Na, na, na, lately, people been calling me crazy
I'm sitting here, thinking like "maybe
Maybe I'm just a lie"

Baby, all we got is right now, now, now
Let the world keep spinning 'round, 'round, 'round, 'round
Even if the sun burns out, out, out
We can be the stars shining in a blackout
'Cause it's a blackout-out
'Cause it's a blackout-out

I smoke
Green things
To let go of other shit, and just be free
Got no
Money
But Superman don't got no pocket in his jeans

Lately, people been calling me crazy
I'm sitting here, thinking like "maybe
Maybe they all been right"
Na, na, na, lately, people been calling me crazy
I'm sitting here, thinking like "maybe
Maybe I'm just a lie"

Baby, all we got is right now, now, now
Let the world keep spinning 'round, 'round, 'round, 'round
Even if the sun burns out, out, out
We can be the stars shining in a blackout
'Cause it's a blackout-out
'Cause it's a blackout-out
Out
'Cause it's a blackout-out

Dreamers 'til we die
