

# mine

Dan Talevski

(Let's go!)

In the car  
In the backseat down where you are  
With the windows down in a bra  
We can love real hard and we fall  
Hey, hey, hey

We drank all our blues away  
Make love every single day  
Don't know where we're going  
Baby

All I'm saying is  
Yeah, you're my  
Lady  
You're my  
Baby  
You're mine  
You're you're you're you're mine  
You're you're mine  
Yeah

All I need is you  
Me right next to you  
After all we been through  
All I need is you  
Baby, next to you  
After all we been through
