

Born to Fail

Dance Gavin Dance

Only bangers from now on
Only angry mental moans
You fool I'm rich
Splattered the bag
Emptied the crypt
You fool I'm rich
Flap like a flag
Scripted to flip

How long could you keep up with all of it?
Before you jacked too many licks and caught something you couldn't kick?
It's no surprise you came and begged me for a second chance
Pathetic hat in hand
Now that I'm in demand
"Give me substance give me something"

This is the song you wish you'd wrote
Before you proved to the world you're a fucking joke
Before you had your chance and fucking choked
Before you tried to do me over
Honestly
You've always known I'd prevail
It's biology
And you were born to fail

Facts
Just say it
No you don't need to know
Feels
Display them
Everyone's the goat

Now I'm around the world shredding for a full ovation
And you can trash my reputation
As you enjoy your long vacation

Give me substance give me something

This is the song you wish you'd wrote
Before you proved to the world you're a fucking joke
Before you had your chance and fucking choked
Before you tried to do me over
Honestly
You've always known I'd prevail
It's biology
And you were born to fail

Ditch it fist bastard
Cancel all your fans
They're passed out in the pasture
Sucking up the spam
You look just like a person
But missing all the man
When life becomes a burden
Just pull a fucking scam

You were born to fail

God damn
You were born to fail
Just pull a fucking scam
You were born to fail
God damn
You were born to fail
Just pull a fucking scam
