

## Parody Catharsis

## Dance Gavin Dance

We feel this way  
Hiding from our pain and our mistakes  
Vibrate the shame  
Let these dirty veins go all the way

I must be the worst and the best  
Cause the hole in my chest  
Yeah they think it's impressive  
If art has to feel like this  
Do I parody catharsis  
Average things don't have a place  
You starve you stay in budget  
Once I got what they want  
They act like they don't want it

I got a leg up  
Know when to sit down, when to get up  
I got a leg up  
I killed the whole game, now I'm fed up

Don't wanna be your shoulder to cry on  
Don't turn the light on  
Don't tell me your name  
I know you're hurting  
But at the same time  
I need to numb my blood til I'm okay

As the world is crumbling down, I'm falling in love  
Don't need your politics, I'm focused  
As the world is turning round, I'm cutting a rug  
Don't need your common sense  
I'm focused

We feel this way  
Hiding from our pain and our mistakes  
Vibrate the shame  
Let these dirty veins go all the way

I must be the worst and the best  
Cause the hole in my chest

This is where you blame it on the weather  
Or blame it on the devil  
Or blame it on whomever  
You suck already  
This is where you blame it on the weather  
Or blame it on the devil  
Or blame it on whomever  
You suck either way

I can't believe this, I'm a fetus, I'm a baby boy  
My height decreases, I can't reach the counter, find my toys  
Once gave speeches, now they're screeches  
What can I destroy  
I'm not lazy  
I'm just baby  
Tiny baby boy
