

Speed Demon

Dance Gavin Dance

Scammed
Right in the middle of my master plan
I saw a demon in my master piece
I need a priest 'cause my life got leased
I freeze, I squeeze my cheese
My bloated noggin and my swollen fist
I know it's all about to change

Separate my carnal mind
From the path that's been eating me up
All I needed was some time
To prove you wrong
I'll always prove you wrong

Break all my bones
Burn me up, devour my light
Light me up like a wildfire
Let it burn, let it burn
Take everything that I said and think it over
Tell everyone that I'm dead and give them closure
They'll tear apart all I am until I don't exist
So feed me to the abyss
(So feed me to the abyss)

A gold angel came to wake me up
I asked for glorious blaze
I get pity from an ancient stump
I found my soul in a flame
Died in my dreams
And I don't need more
I'm cutting you off if I'm brave enough
I think of a better way
I'm down in the dump where I made it up
The things that I'd never say (Things that I never I'd never say)

Break all my bones
Burn me up, devour my light
Light me up like a wildfire
Let it burn, let it burn
Take everything that I said and think it over
Tell everyone that I'm dead and give them closure
They'll tear apart all I am until I don't exist
So feed me to the abyss
So feed me to the abyss
(So feed me to the abyss)

Speed demon when you smash the gas
You know God always gets the last laugh
Sit on the throne
Someone will slit your throat
I'll bring the fight
No end in sight
Devour all my light

Make it stop when you believe it can't stop
Make it stop when you believe you can't
Make it stop when you release that seeker

Make it stop when you release the reins
If you can't prove how the path is followed
The way is no way and no way calls you
Retire from the grip around your mind
Retrieve your heart and rest
