

# Summertime Gladness

## Dance Gavin Dance

I followed  
Making flirty faces, rounding out the bases  
So you'd borrow  
Me for the night  
Maybe for life

Endorphin orphan morphin  
Lemon cheese equally  
You know my origin story, born in the cemetery  
I'm into stupid apps, like cry-yo-own self back to sleep  
My rock is solidbucks, these people amenities

Must have you misunderstood little girl you're a dangerous lady  
Just because it feels so good that don't make  
That don't make you my baby

Fed me skittles on a burial ground  
Gave me rabies in the back of my car  
Shoved that dagger through the back of my heart  
Now you're just another scar

Get another round of weirdo in em  
Turn around slow and rear yo head  
No one allowed to solve the riddle, ha  
(Now you're just another scar)  
1+2 is nine times red

Kiss my kiss yo ass goodbye  
Kiss yo ass goodbye  
Kiss my kiss yo ass goodbye  
Kiss yo ass goodbye  
(Now you're just another scar)

Only on occasion do I lose my patience  
I just swallow  
All of my pride, but I can't this time  
Ohh

I test this cable, I plugged into a tree  
I play the token tone from straight off the leaf  
I got the smoothest roots that spew out the feet  
There's a clue in a plant and it can bite off the teeth of disease

Fed me skittles on a burial ground  
Gave me rabies in the back of my car  
Shoved that dagger through the back of my heart  
Now you're just another scar

Shoved that dagger through the back of my heart  
Now you're just another scar

Get another round of weirdo in em  
Turn around slow and rear yo head  
No one allowed to solve the riddle, ha  
(Now you're just another scar)

Kiss my kiss yo ass goodbye

Kiss yo ass goodbye  
Kiss my kiss yo ass goodbye  
Kiss yo ass goodbye

Kiss my kiss yo ass goodbye  
Kiss yo ass goodbye  
Kiss my kiss yo ass goodbye  
Kiss yo ass goodbye

Kiss my kiss yo ass goodbye  
Kiss yo ass goodbye  
Kiss my kiss yo ass goodbye  
Kiss yo ass goodbye
