

# Suspended In This Disaster

Dance Gavin Dance

There is no operation  
Doctor Mess goes flagrant  
Till' he makes you leggo yo eggo  
They schemin', bottom-feeding  
Robbin' them cribs  
Don't let them veterinarians  
Close to your kids

Don't fight, it's too magnetic  
Did dis dude just did dis?  
Space blood done made you an addict  
Now I done gone through these body bags

You've got me begging for an answer  
Indecision's cancer  
Waiting at your beck and call

I don't know how long I can take it  
Trying to read your body language  
Only got you moving back and forth

Let's make this dinner a classic  
Cook up some breakfast and bounce

How long, how long, do I got, do I gotta wait?  
I'm begging time to move faster  
Suspended in this disaster

Cancel my pride for an ounce, for an ounce of faith  
I'm begging time to move faster  
Suspended in this disaster

Over and over  
Over and over you're complicated  
Over and over I'm fascinated  
Frustrated

Let's make this dinner a classic  
Cook up some breakfast and bounce

How long, how long, do I got, do I gotta wait?  
I'm begging time to move faster  
Suspended in this disaster

Cancel my pride for an ounce, for an ounce of faith  
I'm begging time to move faster  
Suspended in this disaster

Don't fight, it's too magnetic  
Did dis dude just did dis?  
Space blood done made you an addict  
Now I done gone through these body bags
