Dance Gavin Dance

No frowns around  
I'm now an older clown  
I think I honked my spleen  
The money came to answer my prayers  
If you're filming me piss  
It's probably best I stop the stream  
My colon is golden, eyes, they gleam

Waking up  
Courage in my cup  
Last night was rough  
Don't remember much  
Waking up  
Courage in my cup  
Last night was rough  
Doing what I love

Running on fumes, what can I do?  
Waiting for my score to come through  
Desperate for some motivation  
Running on fumes, checking my views  
Scrolling for a comment that proves  
I don't need more motivation

I'm locked in, I'm stocked up often  
I'm shopping, my face is frosted  
I'm living life as if I'm already dead  
I'm spilling cups and then I'm fucking the fed  
I'm locked in and topped up often  
No caution, my pace is toxic  
I'm living life as if I'm already dead  
Open and shut, you know I gave it my best

Was feeling panicked, so I got myself a knife  
Then I felt empty, so I went and got myself a wife  
I tried to learn about the meaning of my life  
But I couldn't quite decide on which good book to buy

'Cause I'm like that  
Priceless, finest, ice white platypus  
Blessing the things that I touch  
Worship me, worship my stuff  
Fitted with a gimmick, make a cynical wow  
Many men went in it, but they couldn't get out  
All of the things that we touch  
Suck all the life out of us

Running on fumes, what can I do?  
Waiting for my score to come through  
Desperate for some motivation  
Running on fumes, checking my views  
Scrolling for a comment that proves  
I don't need more motivation

I'm locked in, I'm stocked up often  
I'm shopping, my face is frosted  
I'm living life as if I'm already dead

I'm spilling cups and then I'm fucking the fed  
I'm locked in and topped up often  
No caution, my pace is toxic  
I'm living life as if I'm already dead

I'm living life, I'm living life as if I'm already dead  
I'm living life, I'm living life as if I'm already dead

Hole in the world, holding some pearls  
Making it tough 'cause I'm never enough  
Hole in the earth, sleep on my perch  
Take some time off to forget what you're worth  
Never
