

Two Secret Weapons

Dance Gavin Dance

Fully automatic
Two secret weapons that'll save me from the static
Was at the pinnacle of melancholy fading
But I counteract the aging tonight, tonight, tonight, tonight

Cut me open
Compensate me for what time has stolen
Slow erosion
Cut me open
Sick and tired of going through the motions
Make me golden again

Getting to the age where I need more than my gorgeous hair
Panic on the planet, every Janet screaming "Life's not fair"
Wanna be the mamma to make everybody stop and stare
Take me to Nirvana and make everybody stop and stare

Beauty panoramic
Come on and give it to me deep as the Atlantic
I got a medical advantage
They're gigantic and I'm playing all my cards tonight, tonight, tonight, tonight

Was looking for something I lost and now I'm found
Killed off a demon that was gnawing at my energy
Tied up by generation 'til I came unbound
When you

Cut me open
Compensate me for what time has stolen
Slow erosion
Cut me open
Sick and tired of going through the motions
Make me golden again

Getting to the age where I need more than my gorgeous hair
Panic on the planet, every Janet screaming "Life's not fair"
Wanna be the mamma to make everybody stop and stare
Take me to Nirvana and make everybody stop and stare

Catching a ride, I know the money gets dried
So I gnash my teeth to the beat of the stu-stu-stutter
Catching a ride, I know the money gets dried
So I plant my lips on the face of the band, I love it

Go, go, go, go, go, go, go, go
Go, go, go, go, go, go, go, go, go, go, go, go, go, go

Don't mind me speeding up on roads I drive
Patterns in a wheel, the notes live lives
Don't mind me speeding up on toads I fly
When life's been better, I don't notice time

I ride
