

## Truth Hurts

### Dance Hall Crashers

Telling me what to do with my life  
Telling me that I'm no good  
Telling me that you are the very best..  
You're driving me up the wall  
At one time you were on top  
You thought you were a hot shot  
You never thought the ride would stop  
Now the roller coaster's over  
Your only pal is your dog Rover  
So much for your stay at the top

Talking about your lucky big deals  
Demanding to top the bill  
Boring, it's all so boring  
I'm so glad the spotlights gone  
At one time you were on top  
You thought you were a hot shot  
You never thought the ride would stop  
Now the roller coaster's over  
Your only pal is your dog Rover  
So much for your stay at the top

Now that the spotlight is gone  
Running towards the bandwagon  
Claiming everything is fine  
You can't hide from truth  
At one time you were on top  
You thought you were a hot shot  
You never thought the ride would stop  
Now the roller coaster's over  
Your only pal is your dog Rover  
So much for your stay at the top
