

## Grateful

dandelion hands

Take me back to your bed  
I won't put up a fight  
If you follow me home  
I will leave on the light  
Make me more of a man  
I can't only feel hate  
Take away all my pain  
I would be grateful

I won't put up a fight  
If you follow me home  
I will leave on the light  
Make me more of a man  
I can't only feel hate  
Take away all my pain  
I would be grateful
