

## My Love Is Strong (I Know Yours Is Too)

dandelion hands

I know we're far but not for long  
Soon we'll be together, singing our song

My love is strong, I know yours is too  
Nothing I want more than to be holding you

8000 miles don't seem so far  
When I think of you at my guitar

The notes flood out, they remind me why we try  
Kiss the pain away when you start to cry
