

## Oh Captain

dandelion hands

Oh captain, where are we going?  
I'm too far from home  
Oh captain, your blood is showing  
I pray to God we win this war  
And I don't pray for anything anymore

Oh captain, my thoughts are sinking  
Much like the ship  
Oh captain, what were you thinking?  
I sure will miss the rain on my window  
And I don't miss anything anymore  
Not anymore, not anymore  
And I don't miss anything anymore

All is fair in love and war  
Glass bottles outside the corner store  
And if they ask we'll give them some more  
That's what our bad habits are good for

Anymore, anymore  
Anymore, anymore

Oh captain, where are we going?
