

Afraid Of Love

Danger Danger

You got somethin' on your mind
I can see it on your face, it's in your eyes
Somethin's got a hold on you
I feel it too
You've got your walls, I've got mine too
And we build 'em up so high
No one can get through
Don't need a reason, when you got the rhyme
Just give it time

'Cos a little bit o' love will go a long, long way
Gotta take some chances, gotta make some mistakes
When it comes to love, you're not the only one (who's afraid)

You're not the only one afraid of love
I'll be your driver if the road is rough
When you get knocked down
You gotta get back up
You're not the only one afraid of love

I give you all the love I have
But you just take it like a bullet in the back
Why do you have to be so hard on yourself
Don't you think it's time you trusted someone else
'Cos a little bit o' love can go a long, long way
In matters of the heart it's just a question of faith
When it comes to love, you're not the only one (who's afraid)
