

Everybody Wants Some

Danger Danger

Friday nite, I been workin' all week
Time to get busy, no time to sleep
I'm going downtown to get some tush
I'm not the kinda guy to beat around the bush
Bustin' my ass just to pay the bills
Before I get old I'm gonna get my fill

I think about it every night in my sleep
While I'm driving in my car
Can't live without it, my obsession runs deep
Well I say screw it! my Mom and Dad do it
And that's good enuff for me

Everybody wants some
Everybody needs some
Whoa oh oh oh
How 'bout you

I'm looking for a girl with a one-track mind
An x-rated lover workin' overtime
And I don't care what anybody thinks
'Cuz it feels so good when I'm in the pink
I like to play doctor with the girl next door
She keeps me cummin' back for more

I think about it every nite in my sleep
While I'm driving in my car
Can't live without it, my obsession runs deep
Well I say screw it! my Mom and Dad do it
And that's good enuff for me

I think about it every nite in my sleep
While I'm driving in my car
Can't live without it, my obsession runs deep
Well I say screw it! my Mom and Dad do it
And that's good enuff for me
