

## Feels Like Love

**Danger Danger**

So many nights I sit and wonder  
Why do I feel the way I do  
Maybe my heart is trying' to tell me ... somethin'  
Maybe I'm fallin in love with you

Girl your voice is keepin' me up all nite  
You got me tossing and turning  
When we touch, Baby, it feels so right  
Like startin' all over again

This time it Feels Like Love  
So strong, one in a million  
This time it Feels Like Love to me

They say that love don't last forever  
Well I'd be the last to disagree  
Sometimes you win, sometimes you lose  
It's such a touchy thing  
But we got a love that's meant to be

Girl your voice is keepin' me up all nite  
You got me tossing and turning  
When we touch, Baby, it feels so right  
Like startin' all over again

This time it Feels Like Love  
So strong, one in a million  
This time it Feels Like Love to me

Sometimes it hurts like hell  
Sometimes you just can't tell  
This time it feels like love to me

For once in my life I'm sure of where I wanna be  
I'm takin my eye off the door  
Cause I found love and love's found me

This time it Feels Like Love  
So strong, one in a million  
This time it Feels Like Love to me
