

# Goodbye

**Danger Danger**

Goodbye, all my dreams are gone  
And life must carry on without me  
Hello, hello Mr. Sun, I'd to become one with you  
And my heart is full of shame  
For these things I have been  
Lick my wounds and be born again

Pray for me, pray for me, pray for me

Help me help me understand?  
Cause God I don't give a damn about you  
And if I fall from grace for these things I have done  
Nail my limbs upon your cross just like you did your son,  
Your son  
Paid in full, paid in flesh, break the binds that tie me  
Ash to ash, dusk to dusk, let my kiss immortal sky,  
Goodbye
