

## Six Million Dollar Man

**Danger Danger**

You had it all inside your mind  
All the questions and the answer  
Hid behind the O.S.I  
You're not taking your chances

Six million dollar man  
Your suit was turned faded red  
Six million dollar man  
Jamie Summers left you dead

Treated the girl like she was gold  
Nothing works like it used to  
All circuits down and lost control  
All their promises fooled you

Calling Oscar down at mission control  
Don't put me on hold again  
Situation is critical, I'm fallin' apart  
Need my bionic heart to mend...

Six million dollar man  
Your suit was turned faded red  
Six million dollar man  
Jamie Summers left you dead
