

# Inside Out

Dangerkids

You destroyed me from the inside out  
But it only makes me love you more  
I guess there's nothing left to talk about tonight

How many times have I had it and lost it?  
They bring up the past, I'm changing the topic  
And everybody's telling me to give up and drop it  
Echoing constant, but failure is not an option  
Don't be obnoxious, I'm losing my conscience  
I'd rather be the nail than the one in the coffin  
The one you've forgotten's got nothing else left to hide  
Because I never told the truth but now it's coming to life

You destroyed me from the inside out  
But it only makes me love you more  
I guess there's nothing left to talk about  
And I just don't care anymore  
If that's the way it has to be  
Then break your teeth  
When you take a bite of me

Can we get back to the basics?  
The days all seem so faded  
A smile on my face everyday because I faked it  
And I can't take the face in the mirror so let's face it  
Worst sleep in years because fear makes you complacent  
So I just file it out, everything I'm about  
I'm busy walking on your tightrope, I figured it out  
So here we go, Here I am  
It's not for me or for them  
'Cause we forgive and forget  
And then we do it again

You destroyed me from the inside out  
But it only makes me love you more  
I guess there's nothing left to talk about  
And I just don't care anymore  
So find another way to break me down  
And make it hard like you did before  
If that's the way it has to be  
Then break your teeth  
When you take a bite of me

(You destroyed me from the inside out  
But it only makes me love you more)  
We're headed for the grave!

You destroyed me from the inside out  
But it only makes me love you more  
I guess there's nothing left to talk about  
And I just don't care anymore  
So find another way to break me down  
And make it hard like you did before  
If that's the way it has to be  
Then break your teeth  
When you take a bite of me
