

# Kill Everything

Dangerkids

Do you have what it takes to best me?  
Don't second guess me  
I got the cheat sheet so you don't wanna test me  
Dedicate this song to anybody that doubts me  
I take it and I'm wearing it proudly  
So tell me who's next  
Cause deep in my chest  
Something awoke that they should've let rest  
So this is a call to open your eyes  
You think they're feeding you dreams  
When they're feeding you lies  
And it goes like three, two, one...

Wake the dead  
Tell me I won't kill everything  
And start again  
Just give me death  
Please give me something  
I can't believe that I believed in you

You can only keep me down for so long  
Fuel my fire, give me something to go on  
Thinking you can stop me?  
Mother fucker you're so wrong  
I'm taking it back  
So tell me what you think about that  
I'm gonna burn it all to ashes  
Another name to add to the Blacklist  
This is a call, we open our eyes  
Free from our dreams  
Now we're living our lives  
Here we go like three, two, one...

Wake the dead  
Tell me I won't kill everything  
And start again  
Just give me death  
Please give me something  
I can't believe that I believed in you

Yeah I believed in you  
Yeah I believed in you  
Yeah I believed in you  
Nobody's taller than the last man standing  
Last man standing  
Light that dark with the fire inside  
Now look at me straight in the eye  
I wanna...

Wake the dead  
Tell me I won't kill everything  
And start again  
Just give me death  
Please give me something  
I can't believe that I believed in you

In you, in you

Yeah I believed in you, in you, in you  
Yeah I believed in you  
(You can only keep me down for so long)  
(You can only keep me down for so long)  
Yeah I believed in you
