

## Share the Kill

### Dangerous Toys

Share the kill, share the kill

Come out, come out wherever we are  
Some of us could make a fortune  
Some of us would just go to prison  
A place to end, just for accessory

Entrepreneur, you'll be self-employed  
Victims friends & family, more than annoyed  
Come out, come out wherever we are

You're seeing in the dark  
You're speaking without words  
You feel a swell in your head  
It's a walk in the park  
Never going unheard, this addiction never going under fed  
You'll be self-employed, victims, friends  
And family, more than annoyed

Share the kill, share the kill

Of this you do not know

Entrepreneur, you'll be self-employed  
Victims friends & family, more than annoyed  
Come out, come out wherever we are
