

# Dream Machine

Daniel Ash

I I know this little boy  
I know this little boy

That lives inside you head  
I know the little boy  
That lives inside you head  
Just dreams of the bright blue stars  
That shine up in the sky  
Just dreams of you sorrows  
When you live another lie

The dream is all around you  
It comes and it will go  
This dream is all around  
It will come and it will go

This god is a god one  
This god is the best  
This god is the good one  
Jus forget all the rest
