

Foolish Thing Desire

Daniel Ash

Yes, I will always remember you
Yes, I will always remember you
Even when the blues came rushing into your heart
Yes even when the blues came rushing in
You just got higher - you just got higher

Yes, I will always remember you
'Cause you were the one that never
Had to lie with you heart

And you were the one
That never had to cry in the dark

And it's such a foolish thing desire
And there's always someone somewhere
Wants to break you heart
But I can always get ohh so much higher
When I feel that light shine into me heart

Yes, I will always remember you
