So you're in a void today
The land of lost not found
So you're in a void today
The land of lost not found
Seems you like that little hell hole mister
So let's all watch you fall down
Someone said to you today mister
Whether you like it or not
A heaven is waiting mister
And you said, ohh no it's not

Going down-Seems you like that little hell hole mister
So let's all watch you fall down
Down down down
So you're in a void today
The land of lost not found
So you're in a void today
The land of lost not found
Seems you like that little hell hole mister
So let's all watch you fall down
