

Call On Me

Daniel Caesar

Finally, you're right where you want to be
Comfortably inside of my arms

I seen it coming, we was manic
Pleasantly
Whatever that means
Oh, baby

Whenever you feel your tummy rumble
Need something to eat
What have you left for me to do? (Yes)
What have you left for me to do? (Yes)

Whenever you feel your pockets empty
You can call on me
What have you left for me to do? (Don't you know)
What have you left for me to do?
Call on me, baby

You change your, you change your
You change your energy when we get home
Get what you need and then I'm all alone
Blessings raining down upon me
Baby, it's no harm if you really want my money
Come and take it from me, come and take it from me
Take advantage of my better nature (Better nature)
I burn through money, yeah, I'm burning paper
Who needs it? Not me

Whenever you feel your tummy rumble
Need something to eat
What have you left for me to do? (Yes)
What have you left for me to do? (Yes)

Whenever you feel your pockets empty
You can call on me
What have you left for me to do? (Don't you know)
What have you left for me to do?
Call on me, baby
