

# Frontal Lobe Muzik

Daniel Caesar

Yeah

You know, how I feel  
I'm in love, with you still  
It helps, but it kills  
Your lovin', your lovin'  
It hurts, it heals  
It breaks, but it builds, ooh yeah  
Your power, and your will  
Your lovin', that's your lovin'

Wanna feel something I can feel  
I know the things that I been feelin', they ain't real  
Wanted to know a different life for them to like me  
Now, I know, I gotta say, it's mighty frightening  
Wanna use it, use my frontal lobe  
But these feelings took this shit around the globe  
God, I'm sick and tired of always feelin' lonely  
Got this golden child, she poppin' with my homies  
It's a hell of a feeling, I put this thing on the map  
In the back of the day, talked a whole lot of smack  
It was hard for the black kid, he used to get on my gat  
Used to steal all my groceries, and now I get to the racks  
Used to be ugly, but now I hit from the back  
Aside from the front, and I swear this pussy like crack  
Nigga got rid of him, I like to hear that shit clap  
I like to hear that shit back  
I like to hear that shit

Are they from home, the unknown, is all that I know  
Couldn't atone on the phone  
I wish that I would be on my own, all alone  
I wish that I would quit bein' stoned, bein' stoned  
I wish that I would-  
I wish that I would just be a man when I can  
I wish you had the vision to follow the plan  
I wish I had a reason to see you again

You know, how I feel  
I'm in love, with you still  
It helps, but it kills  
Your lovin', your lovin'  
It hurts, it heals  
It breaks, but it builds, ooh yeah  
Your power, and your will  
Your lovin', that's your lovin'

Wanna feel something I can feel  
I know the things that I been feelin', they ain't real  
Look, my whole life they been beggin' me to chill  
Got her weighin' on my conscience just to live  
I wanna venture into the unknown  
And I forgot your papa layin' 'round at home  
Never got no pussy acting like a pussy  
Let my nuts hang and look where that shit took me

Never keep it inside

Never keep it inside (Aye)  
Let it out so everybody around you know what it feels like (Yeah)  
Never keep it inside  
Never keep it inside (Aye)  
Let it out so everybody around you know what it feels like (Yeah)  
Ooh  
Ah  
Ah, ah, ah  
Eh, eh, eh
