

Baby doll  
I can't believe the things you said last night that I don't give a fuck about  
I'm in love  
Holding your hand just makes me feel like I am going crazy

I can believe in love  
You can believe in time we spent together  
Baby doll  
Baby doll  
Can't get enough  
Baby doll  
Baby doll  
Let's get in love

I'm excited to make amends  
I feel we could still be friends  
Just let me in or let me go

So let me turn the heater on  
My heart is feeling cold  
The pain is getting old  
Much older than midnight  
Feels like things I want to do with you, but nothing's ever cool

You can't believe your luck  
You should believe I wouldn't even give a fuck  
I'm a dangerous boy  
Who could believe it?

And you know what?  
You know what's coming true  
And you know why?  
I'm never coming back to you  
And you know what?  
You know what's coming true  
And you know why?  
Let's go

I'm excited to make amends  
I feel we could still be friends  
Just let me in or let me go

So let me turn the heater on  
My heart is feeling cold  
The pain is getting old  
Much older than midnight  
Feels like things I want to do with you, but nothing's ever cool

Make way for this guitar, baby  
Get ready

Baby, if you could ever understand  
I just want you, want you in my arms  
I want you, want you in my arms
