

# Dissolve

Daniel Johns

I can't remember, it was stranger than we thought, you dangerous boy  
Now we don't wanna feel cause we don't wanna hurt anymore  
Yeah, we walked, tried to talk in the soundbites, under soft light  
And we don't wanna feel cause we don't wanna cry anymore

We are here in the water  
Dissolve me, love, dissolve me  
We are here with open arms  
Dissolve me, love, while it's easy

Now I've been thinking in a different state of mind  
I understand why a million songs 'bout a million hearts played on  
Cause we fought and we loved and we lived under starlight  
Now I don't wanna feel cause I don't wanna cry anymore

Oh, now wait, baby, we were loaded  
Oh, now wait, baby, we were giants

We are here in the water  
Dissolve me, love, dissolve me  
We are here with open arms  
Dissolve me, love, while it's easy

We are here in the water  
Dissolve me, love, dissolve me  
We are here with open arms  
Dissolve me, love, while it's easy

Oh, now wait, baby, we were loaded  
Oh, now wait, baby, we were giants

We are here in the water  
Dissolve me, love, dissolve me  
We are here with open arms  
Dissolve me, love, while it's easy

We are here in the water  
Dissolve me, love, dissolve me  
We are here with open arms  
Dissolve me, love, while it's easy

Dissolve me, love, while it's easy  
Dissolve me, love, while it's easy
