

## Late Night Drive

Daniel Johns

Late night drive, singing songs we don't even like  
Generous hearts, make us fall for the lie  
If we ever had faith, what would become of it?  
If it could tell us apart, what would they do with us?

All my life  
Just sticking it in  
And now I'm ready to begin, ready to begin  
All this time, so colour me in  
Cause now, I'm ready to begin, ready to begin

Pack my bags, waiting for you at the gate  
Cross our hearts, we'll never see these streets again  
We've been looking for life  
Where the heartbeats gone  
Now the thrill of the night keeps us moving on

All my life  
Just sticking it in  
And now I'm ready to begin, ready to begin  
All this time, so colour me in  
Cause now, I'm ready to begin, ready to begin

All my life  
Oh  
All my life  
Oh

Don't stop cause we're never gonna get enough of  
Your love and I never wanna stop  
...
