

Someone Call An Ambulance

Daniel Johns

Someone's keeping in the pouring rain
Someone's kept honest to go insane
Gold timer, my baby's on the wire

When all I needed was your sympathy
A part of my head is dripping in blood
Someone call an ambulance

Music, my baby's on the wire
When all I needed was your sympathy

No one's tipping it to go too well
Someone's keeping it to go summer fields
Feel time off
My baby's on the wire

When all I needed was your sympathy
A part of my head is dripping in blood
Someone call an ambulance

Music, music

When all I needed was some sympathy

Someone's keeping it to go somewhere
Some time will matter get to know someone
Don't matter?
My baby's on the wire, wire, wire
