

# Surrender

Daniel Johns

Days like this will come to make us run  
All the things I have to thank you for  
Caught up in our minds, so can you come  
Follow just we'll find, a place for me

You

All, all that I be  
All, all the [?]  
All, all that death is  
Surrender, surrender

Men like this will fall to save our souls  
You can have it all, but no control  
Put up in a town you gotta pull on something  
All its been about, this is a gift from me, to

You

You  
Baby

Don't hold back, don't worry about it  
Don't call me back, just let the pain go

You  
Baby

Don't hold back, don't worry about it  
Don't call me back, just let the pain go

You  
Baby

Don't hold back, don't worry about it  
Don't call me back, just let the pain go
