

Billions/Rock

Daniel Johnston

Ahh
There were millions of people
And they all came to hear me play
Billions and billions of people
In the audience from all over the world
I was a thousand years old
Been playing rock and roll music all my life
People like to come hear me rock
Put on a show
That night was special
I was really feeling good
I told them all I loved them
And there's nothing like rock and roll bizness
Billions and billions of people
Well my baby loves to rock
My baby she's my best baby
Every bit a baby she's a baby she's my best baby
When I met my baby I was just 19
I thrilled to my life I couldn't believe her
She was so beautiful I saw her with my eyes
And I saw her and I wouldn't leave her
And I never forget her
My baby
My baby married an undertaker
What grief
My baby I always seen her
When I was walking down the street
In every house in every store
In every mirror she was there
Someday gonna get her
Someday gonna have her
Someday gonna get her
That's what I'm waiting for
I'm gonna get her
Gonna thrill to my life
I'm going to get her
Baby if you're listening
I love you still
Every time I saw ya
I ask ya to marry ya
I told you I had money
And nothing was funny
You said you were in love with somebody else
I knew you was lying
Ah you didn't like what I done
You didn't like what I done
You didn't like what I done
Had to have my fun
Baby, yeah
Told my baby I was gonna meet her soon
And I called her on the phone
She said she didn't know me
Didn't know who I was
I said I wasn't a phony no more
I said I never was
Tried to be an artist
Don't amount to much

Tried to draw a picture
Don't get touch
I want you and you want me
Gonna get together
And it's gonna be funny
Rock
I'm gonna rock the world with my power
I know you like sex
And I'm gonna give you the best
Gonna give it to ya every chance I can
Get ya in the morning
And get ya in the evening
Get ya in... take you to Japan
We'll have our own children
Have our own house
And we'll be rich
Cause honey I rock rock rock
Yea yea yea
