

# Come See Me Tonight

Daniel Johnston

come to me tonight  
if you can hear me thinking  
come to me tonight  
I don't need to invite  
if you can catch the vibes  
come to me tonight  
yesterday is gone again  
I'm thinking how it might have been  
it's getting really late  
and I'm not feeling too great  
come to me tonight  
girl, come share my dream  
'cos reality sucks  
come see me tonight  
I know you've thought of it before  
I'm waiting for the knock upon my door  
please don't make me beg  
if you can hear my thinking  
come see me tonight  
I'm not pulling your leg  
can you hear me calling  
come to me tonight  
I'm hopin for a girl like you  
none other would really do  
come to me tonight
