

Crazy Love

Daniel Johnston

I love that girl so much
I can't get enough of her love, crazy love
She walks on down the street
Shufflin' with her feet
She walks in to the store
Boy I love that crazy girl

She brightens up my day
And everything about her is okay
I don't care what ehy say
I love that girl

I love her tender touch
And everything about her means so much
She's always on my mind
She's so nice and kind

I love that girl so long
I feel just like King Kong
Someday I'll find that girl
I love that girl, I love that girl so much
I can't get enough of her crazy love
