

Danny Don't Rapp

Daniel Johnston

Danny don't rapp, Danny don't rapp
Danny don't rapp, Danny don't rapp
Danny was young when he sung that song
But then he got old and something got cold
No more do whop at the hop the cop said
He was dead, bullet through the head
Danny don't rapp, Danny don't rapp
Danny don't rapp, Danny don't rapp
Forty-two and loud singing and
Still doing that same song every night
And he couldn't stop
Every night he sang that song
Every night he was at the hop
Danny don't rapp, Danny don't rapp
Danny don't rapp, Danny don't rapp
Danny you knew what it was like
To be on the top
You could rock it you could bop it
But why did you drop it
Rock and roll will never die
But you did and it's sad
Danny don't rapp, Danny don't rapp
And on that sorry, sorry night
When no hope was left in sight
You took your life as lovers often do
But I could've told you, Danny
This world was never meant for one as beautiful as...
You can rock it you can bop it
You can rock it you can bop it
At the hop ooo
You can rock it you can bop it
You can rock it you can bop it
At the hop ooo
You can rock it you can bop it
You can rock it you can bop it
At the hop ooo
You can rock it you can bop it
You can rock it you can bop it
At the hop ooo
You can rock it you can bop it
You can rock it you can bop it
At the hop ooo
