

Evening Stars

Daniel Johnston

Walkin' my baby underneath a tree
everything seems real to me
and the evening stars do shine

I'm holding her by the palm of her hand
she seems to understand
and the evening stars do shine

You been kind to me and I won't forget
kinder than anybody's been to me yet
ah ah ahahahah - ah ah ah ah ah

Wandering around now nobody told me
I figured it out for myself
and the evening stars do shine

I was thinking just the other day
my how things have changed
since you been mine
oh oh - uh uh

You've been kind to me and I won't forget
kinder than anybody's been to me yet
ah ahahahah - ah ah ah ah ah
