

# Foolin'

Daniel Johnston

I see no reason why  
Only that I guess that I  
Don't really know what I'm doing  
A letter that never arrived  
Only that I could survive  
That I might see whatever is going on

You took my heart away  
Like an act in a play  
But I was just another standby  
In your soap opera  
And now I fear that I  
Can't change to compromise  
You had me all along  
And you were foolin'

This love could never doubt  
I just wanna sit and pout  
I'm feeling as if you're leaving me out  
Just what am I talking about  
Turning away from the cow  
As if your golden () led me to a shallow grave

You took my heart away  
Like an act in a play  
But I was just another standby  
In your soap opera  
And now I feel that I  
Can't change to compromise  
You had me all along  
And you were foolin'

And now I dare to say  
It wouldn't happen anyway  
Just a love to carry me through back to you  
They say that love is blind  
But I can see you all the time  
Whether or not you think of me in your mind

You took my heart away  
Like an act in a play  
I was just another standby  
In your soap opera  
And now I fear that I  
Can't change to compromise  
You had me all along  
And you were foolin'

And when I lay me down  
To go to sleep  
I can't find you anywhere in my dream  
And now I venture out  
Just another night on the town  
It brings me down to feel so happy

You took my heart away  
Like an act in a play

I was just another standby  
In your soap opera  
And now I fear that I  
Can't change to compromise  
You had me all along  
And you were foolin'  
Foolin', foolin, foolin', foolin'  
Foolin', foolin', foolin'
