

## Hard Time

Daniel Johnston

When I saw you standing there  
Was the start of my hard time  
My hard time

What I thought I felt in your touch  
Was the start of my hard time  
My hard time

When I thought that it meant so much  
That was part of my hard time  
My hard time  
My hard time  
My hard time I had with you

What I thought I saw in your eyes  
And you said that you were mine  
But when your eyes rolled back in your head  
Talking about my hard time  
My hard time  
My hard time  
My hard time I had with you

When I knew that you were free  
I was long in my hard time  
My hard time

When I knew you didn't love me  
It was the end of my hard time  
My hard time  
My hard time  
My hard time  
My hard time I had with you

I have been so low  
Crushed by my ego  
Can't you imagine  
The weight upon me  
But I've been dreaming  
Dreaming I have  
That I've been so low  
Crushed by my ego  
Can't you imagine  
The weight upon me
