

# History of our love

Daniel Johnston

She was apart from me  
I found another girl for awhile  
It didn't work out  
I was just a loser  
Poor loser

Love - It let me down  
Like a nightmare  
You weren't around

Love - There was none  
Probably somewhere else  
There was no fun

No one was there  
I thought ' what's the use '  
'Til I found out I'd lost her again  
It's a sin

Love - It disappointed me  
I thought it was true  
It was taken from me

Love - Oh can't you see  
Someone lied to me  
Oh how I suffer

If there's any justice  
Let it be forever  
Some fear that justice could be never  
But it's ever

Love - It kept me goin'  
To make it through my broken life

Love - I had a chance  
But it was gone before I knew it

She must have been watching  
'Cause I walked all through the town  
Looking for love without knowing  
That everybody put me down  
Like a clown

Love - It's around for any fool who believes  
Love - It's beautiful  
It relieves the saddened heart

I saw her long ago  
Pretty flowers in her hair  
She worked at the funeral  
I wondered if I could get a discount on a mount

Love - You were my friend  
And I remember you from way back when

Love - You were my shining star

I haven't really gone that far off that path
