

# I Know Casper

Daniel Johnston

I know Casper personally  
He's a personal friend of mine  
He always comes to see me almost all the time  
He's my friend

He hops into the T.V  
Pretends he's in the movies  
I try to change the channel  
But he's on every station

He hides inside the mailbox just to surprise the postman  
He hops onto the school bus to play with the children

People put him down  
They say he's just a clown  
But I know he's better than that  
He's an angel from above his heart is full of love  
But I never thought to ask him how he dies

He majored in music in heaven  
He likes the number seven  
He flies through the sky  
And makes me want to cry  
And wish that I can do that

He said be faithful and be true  
And someday you will too  
Casper the friendly ghost  
He really is the most  
I like to brag and boast that I know him  
He's my friend
