

# Loneliness

Daniel Johnston

I told you all about  
And who can forget?  
I told you all about  
But you ain't heard it yet  
So here's a song about loneliness  
Loneliness  
I don't want you to sympathize  
I only want you to realize  
So here's a song about loneliness  
Loneliness  
You can act as if you really know  
You can talk and talk and hear your own echo  
But don't forget it's just loneliness
