

Loneliness

Daniel Johnston

I told you all about
And who can forget?
I told you all about
But you ain't heard it yet
So here's a song about loneliness
Loneliness
I don't want you to sympathize
I only want you to realize
So here's a song about loneliness
Loneliness
You can act as if you really know
You can talk and talk and hear your own echo
But don't forget it's just loneliness
