

# Love Wheel

Daniel Johnston

Walk into a crowded room  
I see you there and I'm hypnotized  
You turn and look at me  
Love wheel spinning 'round 'round 'round 'round

Can't you see baby  
I'm just crazy for you  
Show me your loving  
Like the heaven above will do

You're the one so attractively built  
Ooh, the way you make me feel  
I look into your healing eyes

Love wheel spinn' round, round, round, round  
Can't you see baby I'm just crazy for you  
Show me your loving like the heaven above will do

Comes a time to rock the night away  
Holy matrimony someday  
Come to me from out the blue  
Just like a dream come true  
Yes it's been my favorite wish

I take you now into my arms  
Feel the pleasure of all your charms  
My head is dizzy and my knees are weak

Love wheel spinn' round, 'round, 'round, 'round, round round, r  
ound,  
round, ooh
