

## Must

Daniel Johnston

Funny how love dwells on your mind  
When life is treating you kind  
Leave all your troubles and your worries behind  
It must be close to Christmas time

All my life I have loved you  
It seems to make sense  
I guess I claim you  
You made me obsessed

It's you I love  
Snow white turtle love  
So cute it's you  
Only you would do  
I love, I love

I walk a mile in my shoes  
I wouldn't try to be anybody else  
You satisfy the need in me  
Just to see, to be myself

You make the sun shine  
You make the wine sigh  
I'm on an uphill climb  
Even though I'm standing in line

It's you I love  
Snow white turtle dove  
So cute it's you  
Only you would do  
I love, I love

Its funny how love dwells on your mind  
When life is treating you kind  
Keep all your troubles, and worries behind  
It must be close to Christmas time
